SUMMIT BOULDER

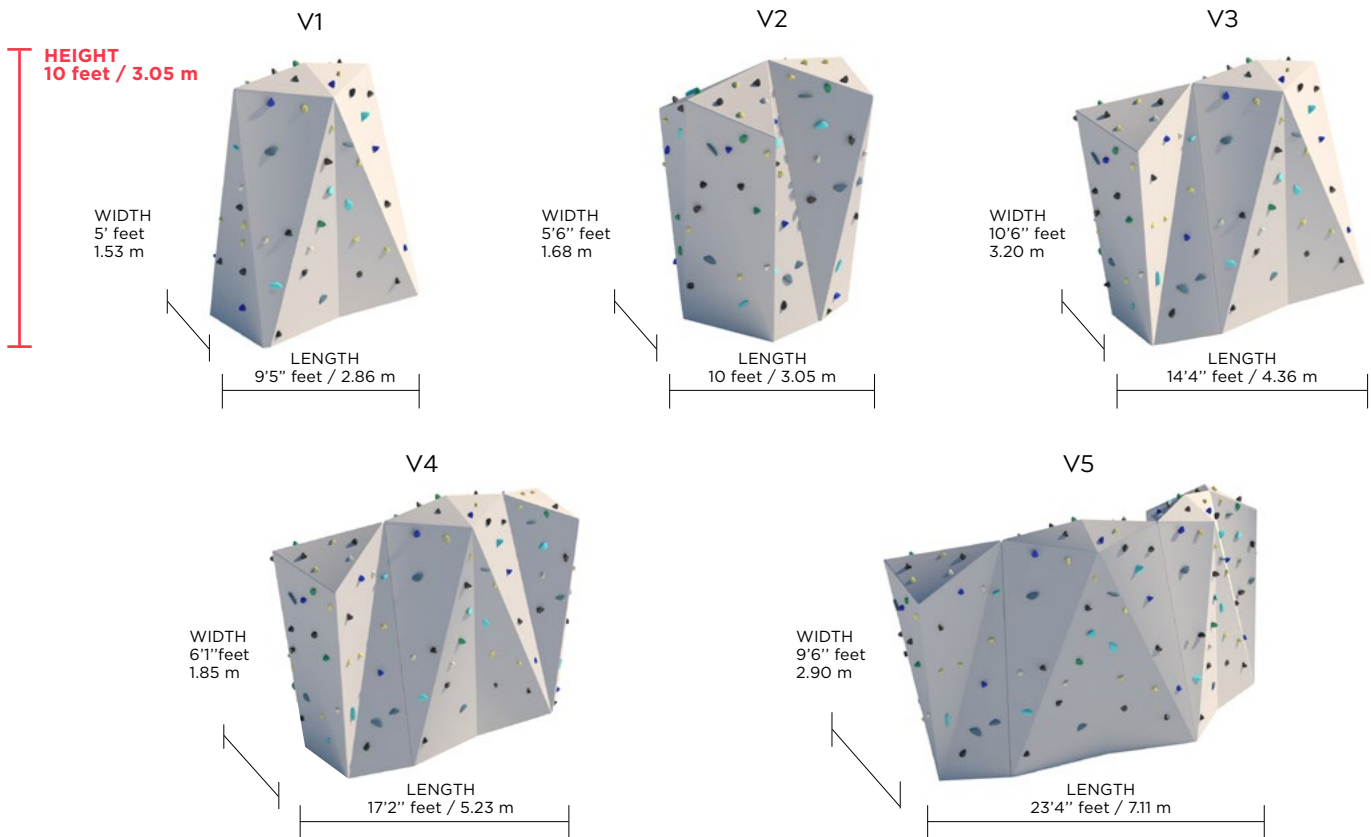

12 feet high Urban Boulders

- The SUMMIT Boulder is both imposing and impressive : a massive structure 12 ft. high.
- This masterpiece was designed so beginner climbers will want to give it a try, while experienced climbers will find it challenging enough to want to get onboard.
- With 330 grips of different shapes and sizes, this Boulder offers several distinct paths with 6 different levels of difficulty.

ALPINE BOULDER

10 feet high Urban Boulders

- The ALPINE Boulders are modular and expandable, limited only by your own climbing vision.
- Composed of 10' ft. high connectable modules, it allows for endless configurations allowing you to form a sequence that is just the right length and shape for your specific project.
- Designed to offer challenging decline sections on both end caps, your project guaranteed to appeal to the most experienced climbers and beginners alike.
